I am a Graphic Design graduate at Seneca College and an aspiring web developer, with an interest in art and technology. With some hands-on experience, I am quick to adapt to computer and web applications.

EXPERIENCE

TOPBOX Marketing Toronto, Ontario — *Tech Lead*

Nov 2011 - Present

- Designed branded print material and web pages using brand logo and graphical assets.
- Organized membership, product and store order data via Excel and Google Sheets spreadsheets.
- Used survey tools to create fully branded and embedded forms to gather data on customers' beauty profiles, gift subscription orders, box customization options, product feedback, product sample sign-ups, and more.
- Managed project file structure and templates to simplify its usage for the team.
- Managed the purchasing and handling of website domains and DNS configurations for SPF and DKIM authentication, MX records, and domain forwarding.

SKILLS

Microsoft Office 365

Adobe Creative Cloud

Google GSuite Apps

HTML5, CSS3, JS

jQuery, Bootstrap

APIs

Node.js

Airtable

Google Data Studio
